APRIL 1, 2018

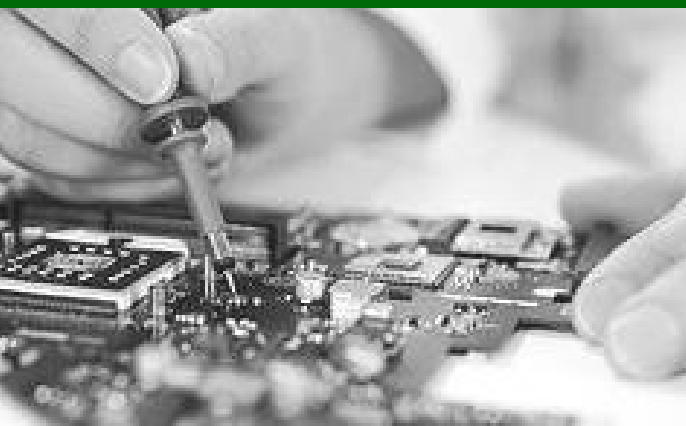

**CRESCENT SYSTEMS, INC.**  
TECHNOLOGY INNOVATION

*Quality in a  
service or  
product is not  
what you  
put into it. It  
is what the  
customer gets  
out of it.*

Peter Drucker

## ABOUT US

Founded in 1995 initially to address the Department of Defense (DoD) community's needs, CSI designs, develops, implements, tests, deploys, and sustains, reliable solutions to the complex problems in the federal and commercial arenas. CSI is a Woman-Owned Small Business (WOSB) with headquarters in Richardson, TX and west coast operations located in Roseville, CA.

## SERVICES

Supporting our users is paramount. We listen to operational and maintenance personnel that use our systems during intense and stressful situations performing rigorous missions, day after day. This support demands every application and software engineer is needed in the process of taking problems to solutions.

## PRODUCTS

CSI offers various customized hardware, software and middleware solutions for our customers. These integrated solutions provide our customers dynamic user experiences. Our hardware and software engineers follow a disciplined approach towards identifying, documenting, certifying, deploying and sustaining modular system solutions which can be easily evolved to meet new/changing system requirements.

## PARTNERS

Our formula for success includes partnering with best-of-breed industry leaders with synergistic capabilities, driven to providing superior performance, unmatched quality, support and dedication to our customers and their mission.
